ENVIRONMENTAL
STEWARDSHIP.

We are dedicated to
ECONOMIC DEVELOPMENT,
providing resources and
supporting economic growth.

Our **EMPLOYEES**
are our greatest asset in
meeting our mission to be an
Oklahoma Agency
of Excellence.

Dear Ms. Young:

In accordance with OAC 252:517-9-6, Assessment Monitoring Program, Subpart(g), Concentration Above Groundwater Protection Standard (GWPS), GRDA is providing notification to the ODEQ that several Appendix B constituents have been detected at statistically significant (SSI) levels above the GWPS (based on current monitoring well network) established under Subpart (h) of OAC 252:517-9-6. The Appendix B constituents that exceeded GWPS include arsenic (MW93-2), molybdenum (MW93-2), and lithium (MW93-1).

GRDA has proactively initiated internal studies that suggest re-evaluation of the monitoring well network system may be necessary and is currently preparing a plan and schedule for analyzing the exceedances and for developing appropriate corrective action in accordance with OAC 252:517-9-6(g). This plan will be submitted by end of February 2021.

This notification will be placed in the facility's operating record and the publicly available internet site as required by OAC 252:517-19-1(h)(8) and OAC 252:517-19-3(h)(6), respectively.

Please feel free to contact me at (918) 824-7565 or (918) 864-9597 (email: mike.bednar@grda.com) or Robert Ladd, VP of GREC Operations at (918) 610-9628 or (918) 530-8273 (email: robert.ladd@grda.com) should you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Michael L. Bednar". The signature is fluid and cursive, with "Michael" and "L." being more stylized and "Bednar" having a more traditional look.

Michael L. Bednar
Manager of Environmental Compliance
